BERLIN PERFORMS!

30 APRIL–3 MAY 2015

Performance as a contemporary art practice challenges how we think about time and space. Contemporary performance practice in a mediated age challenges audience expectations of what and when a live moment is, what is documented and when documentation takes place.

Gallery Weekend BERLIN PERFORMS! offers a critical and engaging look at the themes explored by two international Performance artists, Manar Zuabi, Palestine and Mădălina Dan, Romania. The public is invited to join in these discussions and to consider the social and cultural context of performance today.
