**10.11.18, 4 pm**

Irena Jukić Pranjić : Female Comic Authors from the Balkans / Anamaria Pravencu: Female authors in the Romanian comics. The age of maturity / Artist Talk, Moderation: Felicita Reuschling

Superheroines - what makes them what they are? How do characters, desires and expectations change according to the sociopolitical environment in which they are created? How do superheroines become figures of identification in a world marked by inequality? The exhibition showcases fictional characters and stories in order to trace the normative and racist systems of knowledge and representation behind them. It also takes a look at the creators themselves, who often become everyday heroines within their specific context.
